# TRWAŁOŚĆ EKOLOGIA FAKTURA WYTRZYMAŁOŚĆ

Wysoka jakość surowców gwarantuje ekologiczność i trwałość tych stylowych tapet. Nie blakną od promieni słonecznych, są łatwe w czyszczeniu, odporne na ścieranie i uszkodzenia mechaniczne.

## TRWAŁOŚĆ

W porównaniu z tapetami papierowymi czy tkaninowymi - tapety flizelinowe WonderWall charakteryzują się podwyższoną trwałością oraz elastycznością.

## EKOLOGIA

Tapety WonderWall nie zawierają chloru, włókna szklanego ani innych szkodliwych dla człowieka substancji. Nasze tapety odpowiadają najwyższym standardom i wymaganiom stawianym przy produkcji tego typu produktów.

## WYTRZYMAŁOŚĆ

Tapety WonderWall „nie boją się” wilgoci. W wyniku oddziaływania wody nie deformują się i wysychają zachowując swoją poprzednią strukturę tłoczenia. Dzięki unikalnym właściwościom materiału z jakiego są wyprodukowane, pod ich powierzchnią nigdy nie pojawi się grzyb czy pleśń, mogące wywołać silne reakcje alergiczne.

## FAKTURA

Do projektowania naszych tapet podchodzimy z pełną odpowiedzialnością. Dokonując wyboru ich faktury chcieliśmy stworzyć atrakcyjny produkt, będący alternatywą do gładkich tapet papierowych. Z drugiej strony faktura naszych tapet jest na tyle neutralna, że nie odwraca uwagi od naniesionego na nie wzoru, a wręcz idealnie się z nim komponuje. Posiada również tę zaletę, że pozwala ukryć drobne defekty oraz nierówności ścian.

## STRENGTH

In comparison with paper or fabric wallpaper - WonderWall wallpapers with interfacing are characterized by increased strength and flexibility.

## ECOLOGY

WonderWall wallpapers do not contain chlorine, fibreglass or other harmful substances. Our wallpapers meet the highest standards and requirements for the production of this type of products.

## DURABILITY

WonderWall wallpapers are “not afraid of” moisture. As a result, water does not deform wallpaper and they dry out, maintaining their previous embossing texture. Thanks to the unique properties of the material from which they are produced, any fungus or mildew which can cause strong allergic reactions will never appear under their surface.

## TEXTURE

We approach our wallpaper design with full responsibility. When choosing their texture, we would like to create an attractive product that is an alternative to smooth paper wallpapers. On the other hand, the texture of our wallpapers is so neutral that it does not divert attention from the pattern applied to it, and just the opposite, it perfectly harmonize with the pattern. Its additional advantage is that it can hide minor defects and unevenness of the wall surface.

Chcielibyśmy, aby nasi Klienci mogli podjąć własną decyzję i dokonać wyboru produktów w pełni odpowiadających ich potrzebom. Stąd w swojej ofercie posiadamy również tapety o gładkiej fakturze, sprzedawane w niższej cenie niżeli pozostała część asortymentu.

We would like our clients to make their own decision and choose products that fully meet their needs. Therefore, we also offer wallpapers with a smooth texture, sold at a lower price than the rest of range of our products.

High quality of raw material is the basis that guarantees ecological compatibility and strength of these stylish wallpapers. In addition, they do not burn in the sun, they are easy to clean, durable to abrasion and mechanical influences.

## Standardowe wymiary paneli

Tapety Wonderwall oferowane są klientom w standardowych rolkach o wymiarach 1 m szerokości na 3 m wysokości. Całkowita szerokość wzoru tapety wynosi 5 metrów. Jeśli wysokość pomieszczenia jest mniejsza można odciąć nadmiar materiału bez utraty integralności grafiki. Wystarczy nanieść klej na ścianę i po przyklejeniu brytu tapety - dociąć ją do pożądanego rozmiaru. Montaż naszych paneli jest prosty, wygodny i szybki, nie ma potrzeby odwoływania się do specjalistów, kiedy można to zrobić samodzielnie.

Rozmiar, kolorystyka i wzór tapety mogą zostać dostosowane do wymogów pojedynczych projektów.

### STANDARD DIMENSIONS OF PANELS

Wonderwall panels are offered to customers in already cut strips of 1 m width and 3 m height. The total width of the wallpaper pattern is 5 meters. If height of your premises is lower, the excessive piece can be simply cut off with no loss of scene entirety. You only need to apply paste to wall surface and cut strips heightwise to right size attaching them end-to-end. Our panels can be hung on a wall by oneself with no help of specialists.

The size, colors and composition of the wallpaper can be changed to meet the requirements for individual projects.
